

Protect Your Essential Employees with Thinaär's Employee Health & Safety Platform

Thinaär offers a highly-calibrated, low-cost, easy-to-deploy solution that leverages data from wearable devices, hand sanitizer pumps, and a real-time feedback platform to ensure that your essential employees adhere to CDC and OSHA guidelines and remain safe during COVID-19.

Maintain safe physical distancing throughout your facility.

- Monitor physical distancing practices by receiving centralized alerts when employees are within 6' of one another.
- Notify employees when they are too close together.
- Identify opportunities for employee training.

Implement safe hand hygiene practices with our smart hand sanitizer pumps.

- Monitor use of hand sanitizing stations.
- Receive notifications when stations are not working or are low on hand sanitizer.

Rapidly identify safety concerns & improve employee morale by asking for their feedback.

- Quickly identify and address barriers to healthy, safety, and efficiency.
- Evaluate feedback using the platform's advanced analytics capabilities.
- Coach positive behavior and drive needed behavior changes.

Quickly identify employees who show signs of illness.

- Monitor employee temperatures with Thinaär's Checkme Pro health device.
- Create a culture that prioritizes employee health.

Thinaär solves complex organizational challenges with a holistic solution that integrates proprietary data collection technology, analytics, and strategy consulting. We partner with leaders from Fortune 500 firms, large healthcare organizations, and multi billion-dollar companies. With each engagement, we leverage our data collection technology—which integrates machine-data with human feedback—to develop a 360° view of the organization. We use these insights to inform our consulting approach, designing solutions that align with the organization's best opportunities and greatest needs.
