

Aprio + Thinaer: A Strategic Partnership

BRING COST-EFFECTIVE SOLUTIONS TO YOUR ORGANIZATION'S COMPLEX FINANCIAL CHALLENGES.

For manufacturers to continuously drive operational improvement, growth, and competitive advantage, it's essential to keep up with rapidly advancing technology.

How can this be done? By leveraging a customizable IoT solution that combines Aprio's experienced consulting services with Thinaer's innovative no code/low code IoT platform to enhance your manufacturing and distribution operations. The Aprio and Thinaer partnership can provide your business with an opportunity to leverage cutting-edge IoT technology that creates an integrated solution.

The power of collaboration

By delivering outcomes, not just services, Aprio and Thinaer can help to ensure that data-driven insights are strategically implemented, driving significant improvements in efficiency and productivity.

- **Engagement Initiation:** Aprio launches an introductory assessment on the health of your operations and utilizes Thinaer's starter kit to reduce the time to gain insights and increase initial data capture.
- **Data Collection:** Thinaer's IoT platform collects real-time data while Aprio performs business analysis, hypothesis refinement, and opportunity quantification.
- **Customized Solutions:** Aprio implements a data-driven, value-based tailored solution that serves as the foundation for continuous operational improvements and sustained change.
- **Ongoing Support:** Continuous monitoring, support, and training.
- **Sustained Change:** After implementation, clients continue using Thinaer's IoT solutions for ongoing, sustained change to your business operations.

Success Highlights

Up to \$30M over 36 months ROI

due to eliminating repurchasing of stock and cycle counting

300% gain in productivity

Factory of the Future for Fortune 100 manufacturing company

Up to 25% Inventory Optimization

around optimal storage times, condition and levels

Reap the benefits of a transformative journey

Operational Efficiency

Streamline operations and increase productivity with real-time data and expert analysis.

Predictive Maintenance

Reduce downtime and lower maintenance costs by anticipating equipment failures with IoT sensors and analytics.

Inventory Management

Minimize stockouts and reduce carrying costs with real-time inventory visibility and strategic insights.

Compliance & Risk Management

Ensure regulatory compliance and mitigate risks with continuous monitoring and expert guidance.

Data-Driven Decisions

Informed strategic planning with advanced analytics and actionable insights.

Are you ready to optimize your manufacturing operations with Aprio and Thinaer?

About Thinaer

Thinaer, a manufacturing digital transformation pioneer, fills blind spots with critical data and analysis through IIoT asset tracking and digital twin enabling better, more profitable, production decisions. Thinaer is a SaaS platform that connects the unconnected with patented cloud and hardware-agnostic technology. Thinaer's Sonar continuously democratizes and contextualizes data for the broadest range of sensors bridging IT and OT across commercial and classified area manufacturing processes. Thinaer provides the foundation for Industry 4.0/ Smart Manufacturing digital transformation initiatives improving yield, profitability, and compliance while decreasing waste, maintenance, and energy consumption. Founded in 2015, Thinaer is privately funded and headquartered in Richardson, TX.
